TESTIMONIALS

- ▶ Professor Davé is a fine attorney and expert in IP affairs. We also had the opportunity to work together on a case involving patent infringement and trade secret misappropriation. Professor Davé demonstrated at all times clear strategic thinking in planning the course of a major litigation. I would always welcome the opportunity to work with him in the future.
[Randall R. Rader, Former Chief Judge, Federal Circuit](#)
- ▶ Raj has been my primary attorney for over a decade in enabling me as an inventor, and my firms (a world leading chip manufacturer, and a biotech startup), to establish and maintain high value intellectual property estates. Raj has unique skills at creating IP strategies, drafting applications, and prosecuting them to successful outcomes even in the face of sometimes difficult examination challenges. It also should be noted that these capabilities span the IP communities across the globe. I personally would not hesitate in recommending Raj and his team for those who want their very best shot at creating and defending their own IP estates.
[Gordon Holt, Chief Scientific Office, Northshore Bio](#)

TESTIMONIALS

- ▶ Dr. Raj Davé has been our intellectual property counsel for nearly 20 years. His patent work, legal opinions, and general IP counsel has been instrumental in enabling Toray Plastics (America), Inc. to protect its IP and implement freedom-to-operate in its business goals. Dr. Davé's deep expertise in patent and IP matters is well-regarded within our company and of great value. We would highly recommend Dr. Davé and his firm's services.

[Ken Chang, Sr. Director New Business Development, Toray Plastics \(America\), Inc.](#)

- ▶ Raj helped me understand the importance of a proper IP strategy and did a great job helping our R&D to file precise patents. Thanks to Raj's assistance we were able to create a significant addition to our companies' value and reputation!

TESTIMONIALS

- ▶ Dr. Raj Davé is extremely competent and experienced Patent attorney. I have not met a more critical-thinking lawyer who understands the patent theory and practice so thoroughly. He is a great teacher on many aspects of international and US law. He can navigate and guide any inventor how to think strategically about patent landscape and make the most of the inventor's ideas. We've certainly benefited working closely with him, and his extensive international team.

[Dr. Ranbir Singh, President, GeneSiC Semiconductor Inc.](#)

- ▶ We have had a great experience working with Dr. Raj Davé on our US patent applications over the past couple of years. Raj has amazing breath and depth of knowledge about every aspect of the patent process both within the US and abroad. He is a pleasure to work with and I would highly recommend him if you are looking for an experienced, professional patent attorney!
